Dear participants of the ISTECEC XIV General Assembly:

The University of South Florida (USF) and the Ibero-American Science and Technology Education Consortium (ISTEC) wish to express their gratitude to the participants of the XIV ISTECEC GA, for being part of this weeklong series of events. This year's GA included the participation of over 175 representatives from over 20 countries in the region. The workshops and parallel meetings received very positive feedback, and several deals were struck during the week as well. Shortly you will be able to access all presentations made during that week, as well as the GA's minutes by visiting the ISTECEC webpage ([www.istec.org](http://www.istec.org)).

The support received by members, observers, industries and international organizations was paramount to the success of this important international assembly and the other ISTECEC events and activities. On behalf of the ISTECEC Board of Directors, Officers and the local hosts, we express our profound gratitude and look forward to working with you under concrete ISTECEC projects in the near future.

Wishing you and your loved ones a happy holiday season,

Yours truly,

Dr. Wilfrido Moreno  
Host IV GA, Board of Directors  
USF

Mauro Miskulin  
President  
ISTEC
